

Thank you

Arezou Pour Mirza

received "Thank You" card

Arezou, I am impressed to learn of the incredible work you have done in creating an instrumental resource, which has proven extremely beneficial to your teams. You have developed a comprehensive 'dashboard' for all MBA subjects and I understand that the high calibre and functionality of this initiative has seen it become adopted by the entire teaching team. I am so delighted and proud to hear of your nous and leadership with this project and how you devoted considerable amounts of your own time to train staff on using this platform. Your Program Director Alex Bolt would like to say to you, "Thank you, Arezou for the initiative in developing your MBA dashboard, and the time spent in training staff on its operation". I echo Alex's sentiments and am so grateful for the impact you are having on our organisation. You are making a positive difference to the way we deliver the best experience to our students. Warmest regards, Linda
